## ABOUT

---

Making drinks has been my passion since 2014—there’s nothing like the taste of silky, steamed milk with a perfectly extracted espresso. Whether it’s hot or cold, caffeinated or decaffeinated, at Maha’s we strive for perfection while creating every single drink.

I was mentored by a couple of OGs in the coffee game, but I have to give it to my sister, Monika, who taught me how to make my first espresso-based drink. After we opened Maha’s, I fell in love with making craft drinks—mostly because this time it was for the customers and by my rules. This really brought out my creative side, and there were no boundaries constraining what I could create. Now that I’ve had all the time in world to practice, I present to you my pride and joy—the Maha’s Drinks Menu.
